Rotate to choose num of hrs

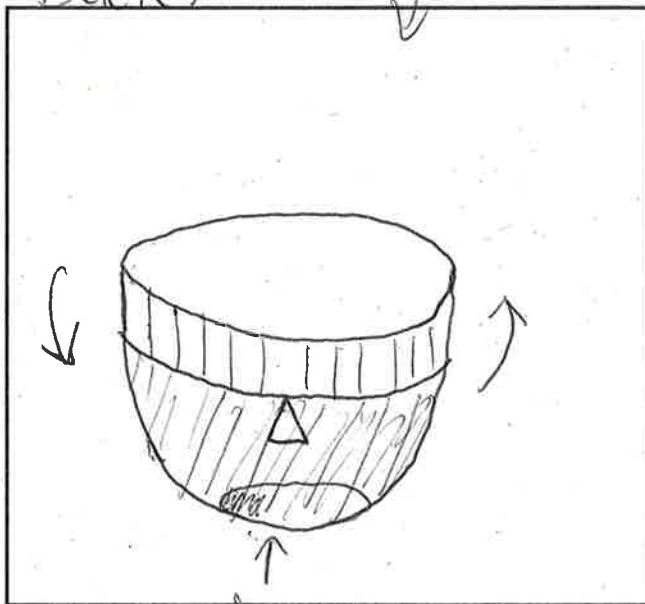

Pause ~~1~~ hrs.

OFF

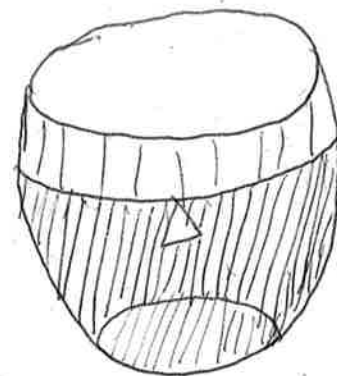

Pause forever.

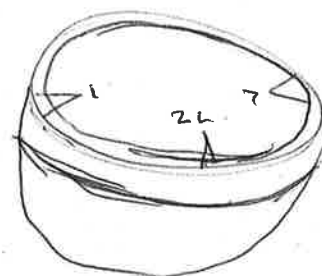

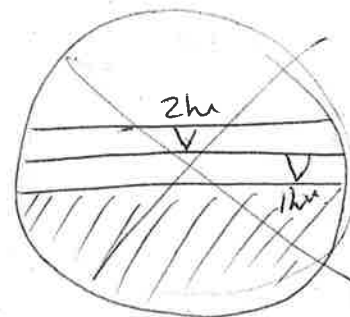

Delete

button (press to delete)

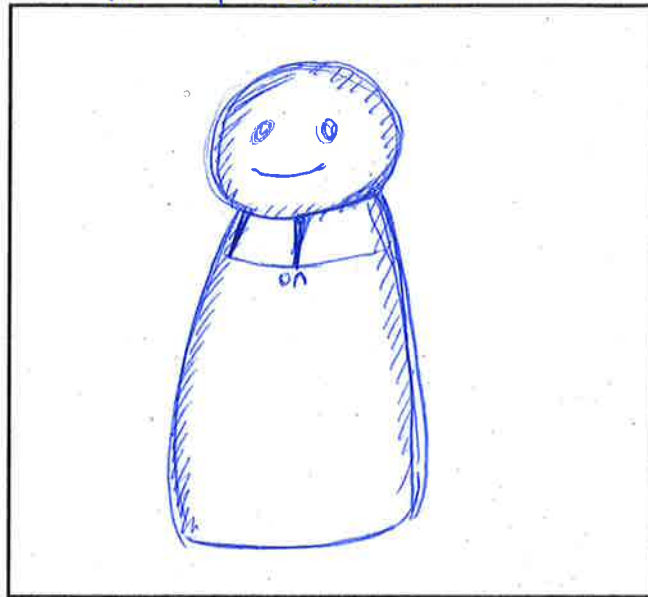

→ File shredding notification & haptic feedback.

Doll with turning head.

Just Pause.

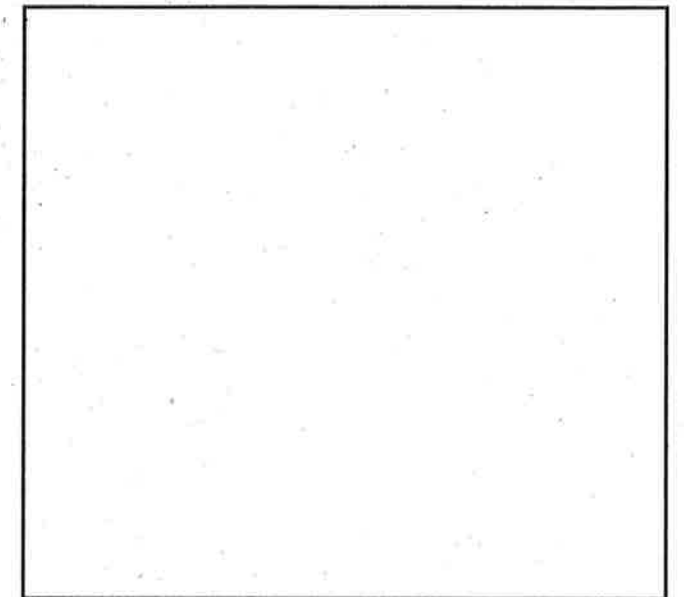

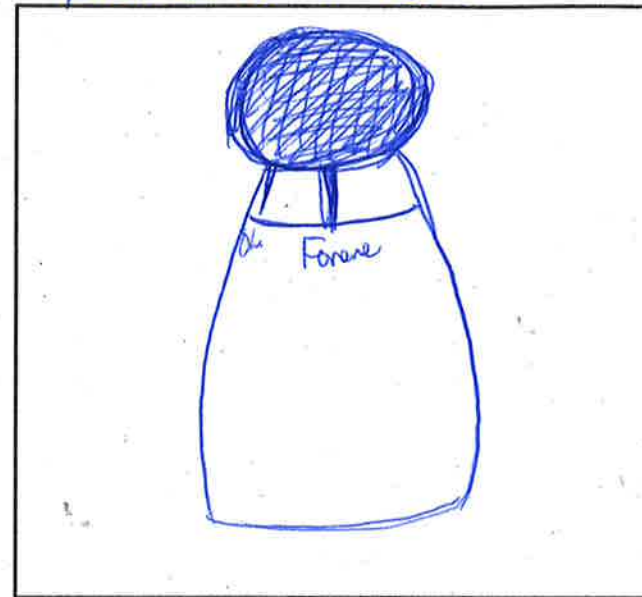

no interaction

Pause for 1hr / rest of day

Pause Forever.

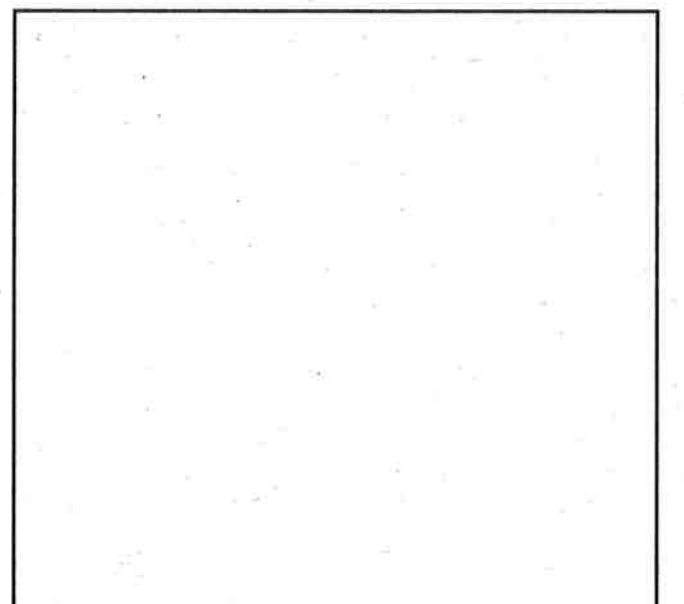

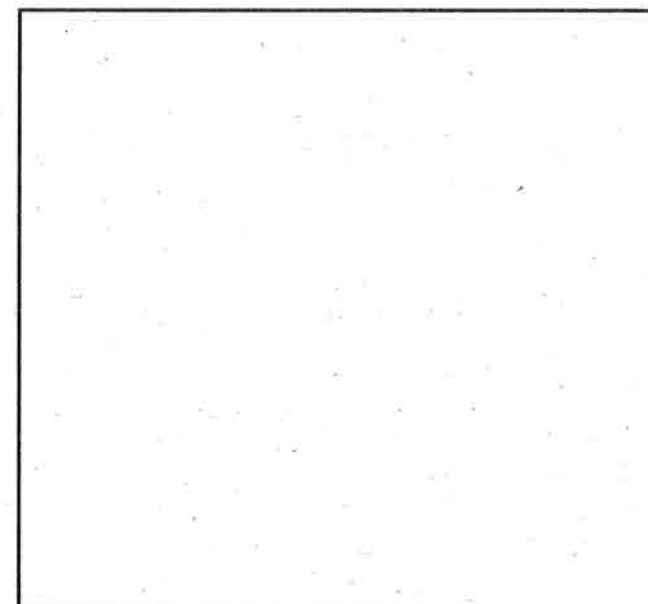

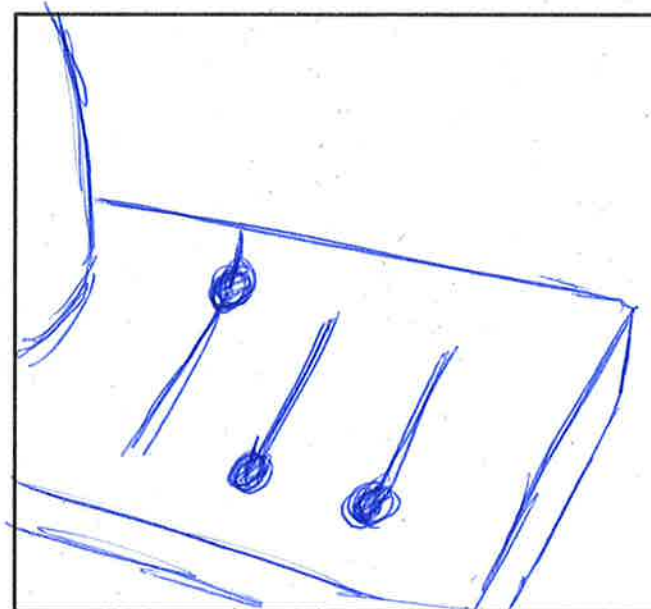

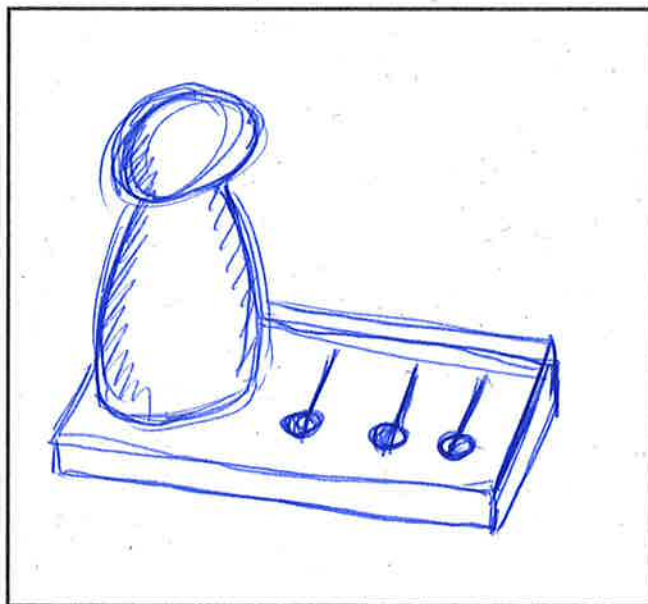

~~no interaction~~
if all is working then the system sits at on, and that is it.

rotate head to select the pause time, once it has reached that then the head slowly turns back to the on status, when done device vibrates.

rotate head so face no longer looks at you, device is now set to off ^{SPRING} an system is turned off.

Detail.

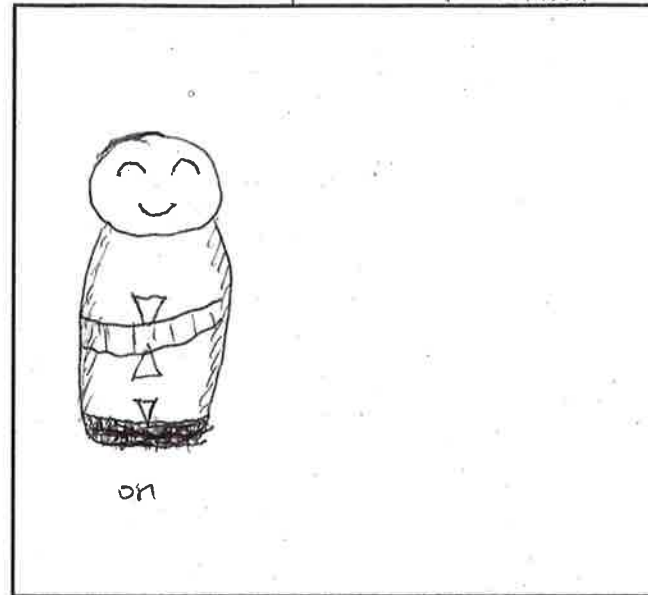

Doll sits on bar to include detail.

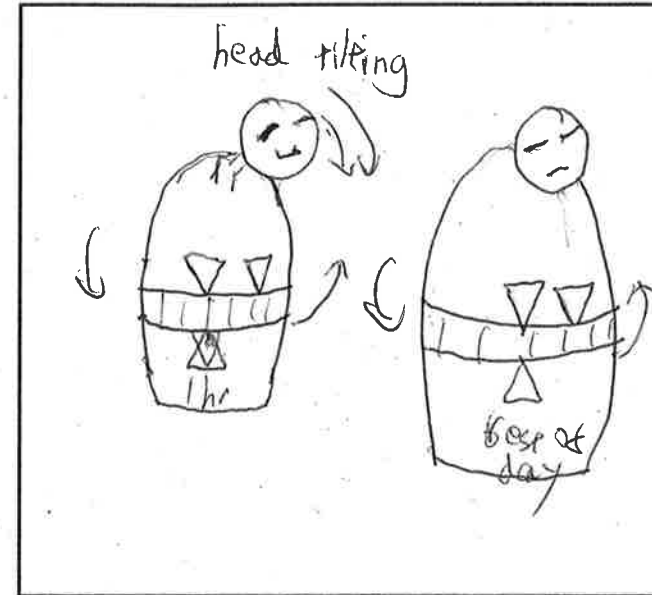

all is working and nothing is being deleted.

lever move up to delete 1hr; then automatically resets... other lever can not be moved when one is active
